Summary

Aspiring Python Developer with 7 months of internship experience and currently pursuing a Master of Science in Computer Science. Contributed to game development projects focusing on design and implementation using Python. Proficient in Python, Java, and C++, with a strong foundation in web technologies like HTML and CSS. Eager to leverage academic knowledge and practical experience to excel as a Developer.

Education

The University of Texas at Arlington	**May 2025**
Master of Science in Computer Science (GPA:- 3.4)	Arlington, TX
Indus University	**Jun 2023**
Bachelor of Technology (GPA:- 3.8)	Ahmedabad, India
L.J. University	**Oct 2020**
Diploma of Engineering (GPA:- 3.5)	Ahmedabad, India

Projects

Protein Structure Prediction Using Deep Learning- Researcher and Developer | January 2025 – March 2025
- **Description:** This project predicts protein-protein interactions and mutation effects using deep learning techniques like graph neural networks and transformers. It aims to support drug discovery and genetic disorder research with accurate and interpretable insights.
- **Technologies:** Python, PyTorch, TensorFlow, Biopython, RDKit, Google Colab

Thesis Portal- Software Developer | August 2024 – November 2024
  ❖ https://github.com/skadri1601/Thesis-Paper-UTA.git
- **Description:** The Digital Thesis Repository is a platform for storing and showcasing academic theses, featuring search, peer review, submission guidelines, and statistical insights. It supports academic collaboration and serves students, researchers, and educators.
- **Technologies:** Typescript, ReactJS, NodeJS, MongoDB, Vercel

CareerKlick- Software Developer | August 2024 – November 2024
  ❖ https://github.com/ak-2811/CareerKlick
- **Description:** CareerKlick is a dynamic e-job portal connecting job seekers and employers through tailored features, from job postings to application management. Built for flexibility and continuous improvement, it ensures seamless recruitment and platform compliance under a dedicated Super Admin.
- **Technologies:** Python(Django), Mysql

Pharmacy Management System- Software Developer | January 2023 – May 2023
  ❖ https://github.com/skadri1601/Pharmacy-Management_System.git
- **Description:** Implemented a robust solution for real-time medicine tracking and streamlined distribution workflows. Boosted operational efficiency with automated inventory control, reorder alerts, and secure transactional records.
- **Technologies:** Python 3, SQLite 3, HTML, CSS, JavaScript, MySQL

Grow Green- Software Developer | May 2022 – September 2022
  ❖ https://github.com/skadri1601/Grow_Green.git
- **Description:** Developed a user-friendly platform to raise environmental awareness, inspiring tree planting and sustainable practices. Streamlined the purchase of gardening tools with secure checkout and educational resources for greener living.
- **Technologies:** HTML, CSS, PHP, MySQL

Job Portal- Software Developer | May 2022 – September 2022
- **Description:** Developed a platform to connect job seekers and employers through intuitive search and advanced matching algorithms. Enhanced user engagement with a clean interface, real-time notifications, and a seamless application process.
- **Technologies:** HTML, CSS, PHP, MySQL

Work Experience

Gameoly	**June 2022 – December 2022**
Python Developer Intern	*Ahmedabad, India*

- Contributed to Python-based web development projects using Django.
- Developed scripts to automate tasks, improving team efficiency.
- Assisted in designing and implementing new web features.
- Collaborated with senior developers on coding best practices and debugging.
- Maintained and updated web applications, ensuring smooth operation.

Skills

- **Programming Languages: -** C, C++, Java, Python, JavaScript, TypeScript
- **Web Technologies: -** HTML, CSS, PHP, .NET, Node.js, React.js
- **Software Development: -** C#, Java Swing
- **Database: -** MySQL, SQLite, MongoDB
- **Deployment/Hosting: -** Vercel
